AUTHOR INDEX

Allen, D. B.
Low Smoke and Flame Spread Cables, p. 177

Babrauskas, Vytenis
Applications of Predictive Smoke Measurements, p. 51

Baer, A. D.
Pyrolysis of Polymer Films in Air at High Temperatures and at High Heating Rates, p. 214

Benisek, L.
The Effect of Heat Flux on the Smoke Emission of Wool, p. 23

Bert, Michel
Nature of Carbonaceous Part of Smoke in Combustion of Rigid PVC: Effect of Copper Oxide as Smoke Suppressor, p. 72

Borsini, Giancarlo
Combustion Modified Integral Skin Urethane Foam, p. 250

Bowles, Kenneth J.
Fire Test Method for Graphite Fiber Reinforced Plastics, p. 3

Callaerts, R.
Flammability of Blends of Acetates and Chlorinated Hydrocarbons, p. 272

Campbell, H.J.
Co-operative Study of Fire Tests for Cellulose Insulation, p. 115

Carhart, H.W.
HW and HBr Production from Full Scale CF_3Br (Halon 1301) Fire Suppression Tests, p. 229

Cipolla, Mauro
Combustion Modified Integral Skin Urethane Foam, p. 250

Coffey, E. J.
Low Smoke and Flame Spread Cables, p. 177

Colley, A. M.
The Effect of Flame Resistant Hard Segments on the Flammability and Physical Properties of Polydimethylsiloxane Based Multiblock Copolymers, p. 101

DiNuccio, J.
Co-operative Study of Fire Tests for Cellulose Insulation, p. 115

D'Souza, M. V.
Co-operative Study of Fire Tests for Cellulose Insulation, p. 115

Day, M.
Co-operative Study of Fire Tests for Cellulose Insulation, p. 115

Factor, A.
The Effect of Flame Resistant Hard Segments on the Flammability and Physical Properties of Polydimethylsiloxane Based Multiblock Copolymers, p. 101

Guyot, Alain
Nature of the Carbonaceous Part of Smoke in Combustion of Rigie PVC: Effect of Copper Oxide as Smoke Suppressor, p. 72

Handa, Takashi
Flow Behavior of Plume from Growing Fire Source in High Ceiling Enclosure, p. 31

Hilado, Carlos J.
Pyrolysis of Polymeric Matirials: III. Effect of Chemical; Structure and Temperature on Carbon Monoxide Evolution, p. 65

A Method for Describing the Potential Hazards of Flammability, Toxicity, and Other Parameters, p. 108

Government Publications Relevant to Fire Safety, p. 301

Huttlinger, Patricia A.
Pyrolysis of Polymeric Materials: III. Effect of Chemical Structure and Temperature on Carbon Monixide Evolution, p. 65

A Method for Describing the Potential Hazasrds of Flasmmability, Toxicity, and Other Parameters, p. 108

Government Publications Relevant to Fire Safety, p. 201

Ilardo, Charles S.
FR Plastics: Deficiences of NBS Smoke Testing, p. 15

Jin, Tadahisa
Studies of Emotional Instability in Smoke from Fires, p. 130

Kasem, M. A.
Co-operative Stucy of Fire Tests for Cellulose Insulation, p. 115

Kaufman, S.
Low Smoke and flame Spread Cables, p. 177

Lahaye, Jacques
Nature of the Carbonaceous Part of Smoke in Combustion of Rigid PVC: Effect of Copper Oxide as Smoke Suppressor, p. 72

MacLaury, Michael R.
Kinetic and Chemical Analysis of Polymer Pyrolytic Volatiles by Pyrolysis GC and TGA, p. 203

Maahs, Gunther
The Determination of Smoke Density and of Smoke Evolution Rate in the NBS Chamber and the Influence of Flameproofing Agents and Smoke Retardants, p. 281

Michel, Alain
Nature of the Carbonaceous Part of Smoke in Combustion of Rigid PVC: Effect of Copper Oxide as Smoke Suppressor, p. 72

Mikado, Tsuneo
Evaluation of Flammability of Polymers for Electric Cable, p. 143

Musick, James K.
HF and HBr Production from Full Scale CF_3Br (Halon 1301) Fire Suppression Tests, p. 229

Pandolfi, Gianfranco,
Combustion Modified Integral Skin Urethane Foam, p. 250

Phillips, W. A.
The Effect of Heat Flux on the Smoke Emission of Wool, p. 23

Przybia, L. J.
Low Smoke and Flame Spread Cables, p. 177

Reed, J. C.
Low Smoke and Flame Spread Cables, p. 177

Sannes, K. N.
The Effect of Flame Resistant Hard Segments on the Flammability and Physical Properties of Polydimethylsiloxane Based Multiblock Copolymers, p. 101

Scharf, Daniel J.
FR Plastics: Deficiences of NBX Smoke Testing, p. 15

Schneider, Alan L.
Shipboard Fire Survey, p. 169

Schroll, Alyne L.
Kinetic and Chemical Analysis of Polymer Pyrolytic Volatiles by pyrolysis GC and TGA, p. 203

Schuler, Ralf
The Determination of Smoke Density and Smoke Evolution Rate in the NBS Chamber and the Influence of Flameproofing Agents and Smoke Retarders, p. 281

Sheinson, Ronald S.
HF and HBr Production from Full Scale CF_3Br (Halon 1301) Fire Suppression Tests, p. 229

Smith, Edwin E.
A Release Rate Data Mathematical Model of Flame Spread Through Grouped Vertical Cables, p. 81

Sugawa, Osami
Flow Behavior of Plume from Growing Fire Source in High Ceiling Enclosure, p. 31

Sumi, K.
Cooperative Study of Fire Tests for Cellulose Insulation, p. 115

Canadian Programs Relating to Plastics in the Built Environment — A Summary Review, p. 258

Taylor, W.
Canadian Programs Relating to Plastics in the Built Environment — A Summary Review, p. 258

Tsuchiya, Y.
Co-operative Study of Fire Tests for Cellulose Insulation, p. 115

Viau, R.
Cooperative Study of Fire Tests for Cellulose Insulation, p. 115

Wharton, R.K.
A Note on the Column Dimensions Permitted by ASTM D 2863 for Critical Oxygen Index Testing, p. 236

The Relative Performance of Critical Oxygen Index Testing, p. 236

The Relative Performance of Critical Oxygen Index Testing Columns Under Ambient Conditions, p. 266

Williamson, R. Brady
Fire Testing Performance of Small Particleboard Panels, p. 240

Woolerton, Greydon R.
A Release Rate Data Mathematical Model of Flame Spread Through Grouped Vertical Cables, p. 81

Yocum, M. M.
Low Smoke and Flame Spread Cables, p. 177

Yumoto, Taro
Effect of Tank Height on Fire Spread Between Two Model Oil Tanks, p. 157

Zicherman, Joseph B.
Fire Testing Performance of Small Particleboard Panels, p. 240

SUBJECT INDEX

Acetates, p. 292
Aging in flammability, p. 250
Bouyancy-eddy relation, p. 31
Buoyancy-momentum relation, p. 31
Cables, flame/smoke measurement, p. 177
Cavity wall, p. 258
Cellular plastics, p. 258
Cellulose insulation, p. 115
Center line quantites, p. 31
Characteristic radius of plum, p. 31
Chlorinated hydrocarbons, p. 272
Combustion products, p. 203
Communications cables, p. 177
Comparison C1/Br Compounds, p. 15
Composites, p. 3
Copper oxide smoke suppression, p. 72
Combustion, p. 250
Corrosive, p. 229
Critical oxygen index, testing columns, p. 266
Critical oxygen index, p. 236
Degradation kinetics, p. 203
Emotional instability, p. 130
Entrainment, p. 31
Escape route, p. 130
Evaluation, p. 99
Extinction coefficient, p. 130
FAA smoke rule, p. 15
Fiber release, p. 3
Fire, p. 229
Fires, oil tanks, p. 157
Fire spread, p. 157
Fire test, p. 3, 15
Flame resistant copolymers, p. 101
Flame spread, p. 258
Flame spread on polymer, p. 99
Flaming combustion, p. 115
Flammability, p. 203, p. 272
Flammability of polymer, p. 99
Flammability tests, p. 236
Flash point of blends, p. 272
Flow behavior, p. 31
FR plastics, p. 15
Government publications on fire safety, p. 301
Graphite fiber, p. 3
Grouped vertical cables, p. 81
Halogen acid, p. 229
Halon 1301, p. 229
Heat rate, p. 130
Hydrogen bromide, p. 229
Hydrogen fluoride, p. 229
Institutional mattresses, p. 51
Low smoke Zirpro, p. 23
Mathematical modelling, p. 81
Multiblock copolymers, p. 101
Mylar pyrolysis, p. 214
NBS smoke density chamber, p. 23
NBS smoke chamber, revised methods, p. 281
NBS Smoke testing deficiencies, p. 15
Nylon pyrolysis, p. 214
Oil fires, p. 157
Oxygen index, p.236
Particleboard panels, fire testing, p. 240
Polyethylene pyrolysis, p. 214
Plastic pipe, p. 258

Polydimethyl siloxane, p. 101
Polymer, p. 203
Polymer films, p. 214
polymer pyrolysis, p. 65
Polyurethane foams, p. 250
Pyrolysis, p. 203, p. 214
Release rate data, p. 81
Rigid PVC combustion, p. 72
Shipboard fires, p. 169
Smoke density, p. 130
Smoke density, determination, p. 281
Smoke emission, p. 23
Smoke measurement, p. 51
Smoke resistant copolymers, p. 101
Smoldering combustion, p. 115
Suppression, p. 229
Testing columns, p. 236
TGA, p. 203
Thermal degradation, p. 203
Toxic, p. 229
Toxicity, p. 258
Transportation, p. 250
Trifluorobromomethane, p. 229
Visibility, p. 130
Walking speed, p. 130
Wire and cable compounds, p. 15
Wood crib pile, p. 31
Wool, p. 23
XLPE, p. 15
Zipro treatments, p. 23
